

DILUTION CONTROL

PODIUM.4 UNIT

PODIUM.4

Genesan's PODIUM.4 unit was designed with limited space in mind. (it even fits in corners.) But despite its compact dimensions, it still dispenses up to four different products for both bottle- or bucket-filling.

Convenient features include:

One-handed bottle-filling

Single Key Locking Cabinet

Please speak to your Genesan Representative to discuss your specific needs.

DILUTION CONTROL OPTIONS

POD DUAL-FLOW TRIGGER

Designed for those locations where on-the-wall units are not practical. The Dual Flow Trigger mounts directly on 2L POD concentrates. Once attached to a water source, it can be set to fill both bottles or buckets. Twist-on foaming attachment available.

EXTREME UNITS

SQUEEZE & POUR BOTTLE

Reservoir

A convenient option when wall-mounted dispensing is not preferred.

Loosen cap, gently squeeze bottle to fill reservoir. Remove cap and empty contents into filled bottle or bucket.

Our Extreme 1-Button unit is ideal for filling autoscrubbers when only a single product is needed.
